

WASTE MANAGEMENT, INC.

RECYCLING INFORMATION

Waste Management will be picking-up the one container for mixed recycling. Please place your paper goods along with the “commingle material” of glass, plastic and aluminum into the same container. WM hauls this material to a sorting center that separates all material for recycling.

Material for recycling should be placed in the container loosely. Bagging is not necessary unless needed to keep material from flying around, place glass, plastic and aluminum in see through plastic bags. Paper can be placed into paper bags or fill boxes to keep loose pieces from flying around.
